

To Who It May Concern:A little history on myself. I am a 49 year old male truck driver. I have been a driver for 27 years. And 2.75 million miles accident free. Now I have had my wrights taken away from me because somebody doesn't think Xm should be able to broadcast the way they do. If the local radios stations offer the progaming the way Xm does I would not care. But I got my first unit 3 years ago and now have a total of 3. If the local radio had some of the thing satilite radio has I would not care but they don't. If local radio had better wheather reports I would not care but they don't. And if they had traffic reports the where as good as xm's are I would not care but they don't. I really think this ia all about money and the local radio stations are looseing and it because of poor programing. So in closing don't make XM change. Thank you
